

SECURITY DESTRUCTION SERVICE Confidential Document Shredding

Collections

The Green Team supply 240 litre capacity lockable Security Wheelie bins, to be filled with your Confidential Papers and Documents - sensitive, confidential information that just **MUST BE** shredded.

At call or on regular frequency, Green Team will collect your filled Security Locked bin and replace it with an empty one. Your Security bin is then transported by a secure vehicle to our premises at Pooraka for shredding.

The Green Team also provide a service for that "one-off" **OFFICE CLEAN OUT**. You have up to 2 weeks to fill the Security Bin before The Green Team collects it for transportation to our premises for shredding.

Destruction

All documents are destroyed by shredding. Written confirmation and certification of document destruction is provided.

Security

All Green Team staff are vetted for security purposes. At Green Team, we understand the importance for safe, reliable discreet handling of your confidential Documents, from the time collected at your premises to the destructions at our Warehouse.
